Gillette Sales Company, 21 Times Building New York City.

MAKES LAUNDRY WORK EASY.

Follow These Directions and You Will Lighten Labor.

You can do a morning's work in one hour and a half by following these directions:

Put eight cents' worth of borax, five cents' worth of salts tartar, five cents' worth of powdered ammonia, and one package of potash into five quarts of boiling water. Turn one quart of water onto the potash first and let it stand until cool, then add the rest. Let the mixture stand 24 hours, and it is ready to use. This makes enough for 20 washes.

When ready to use, take one coffee cupful of the "Quick and Easy," shave half a cake of soap, and add them to your boilerful of clothes. Boil half an hour. A good rinsing in your bluing water is all that is necessary, unless some collar or wristband is very much soiled.—Harper's Bazar.

NEW WAYS OF SERVING EGGS.

When the Palate Becomes Tired of the Old Preparations.

There are a good many articles of food which are digested easily, but which lack flavor and the palate easily tires of them. One of these is eggs, and the difficulty can be overcome by serving them with some decided flavor. Tomato sauce, anchovy toast, stewed celery, and many other things will suggest themselves to the mind of the housekeeper who is seeking to make this easily digested nutritive food acceptable to some member of her family. Sometimes it can be flavored with a sprinkling of cheese, sometimes worked into the diet in some other form as custards. The principle in dealing with the simple foods for invalids or people who have some difficulty in nutrition is to use flavors in different forms with discretion to avoid tiring the taste and yet give the amount of nutrition necessary under cover of different flavors.

Regenerate Salts.

Smelling salts can be made to last for years if fresh spirits are poured over the balls of salt from time to time, so as to keep up the original strength of the mixture. Many people use spirits of ammonia in this connection, but a still more powerful specific may be found in a combination of this spirit with oil of lavender, in the proportion of two parts of the former to one of the latter. In procuring the ammonia, however, care must be taken to avoid choosing aromatic spirits of ammonia in error, the water which it contains preventing it from amalgamating with the oil.

Potato Fritters.

Take one pint of boiled and mashed potatoes, one-half cup of hot milk.

three tablespoonfuls of butter, three tablespoonfuls of sugar, two eggs, a little nutmeg, one teaspoonful salt. Add the milk, butter, sugar and seasoning to the mashed potatoes, then add the eggs, well beaten. Stir until smooth and light, spread about one-half inch deep on a buttered dish and set aside to cool. When cold cut into squares, dip into beaten eggs and in bread crumbs, fry brown in boiling fat and serve immediately.

Fig Jelly.

Pick over, wash and soak over night in cold water one pound of cooking figs. Cook in the water in which they were soaked over a very slow fire until tender. Drain off the liquid and to each pint of it add the juice of two lemons, a half cup of sugar and a half ounce of gelatine, soaked beforehand in three tablespoonfuls of cold water. Strain through a jelly bag into molds wet with cold water, and set aside until cold; then put in the ice chest until firm. Eat with cream. The jelly should be a rich amber color.

The Baby's Bib.

Danish angora cloth is splendid material for infants' bibs on account of its weight, and it launders beautifully.

The embroidery should be done with a fairly heavy cotton and the stitches should be close and even.

If daisies are used in embroidering the bib they should be worked in satin-stitched, the leaves voided, or, in other words, worked from mid-vein to edge on both sides. French knots may be used to fill the centers.

A lingerie button and a little loop close the bib at the back.

Ice Cream Cake.

To the yolk of one egg and the whites of three add one cupful of sugar, one and three-fourths cupfuls of flour, one-half cupful of sweet milk, one-half cupful of butter, one-half teaspoonful of cream of tartar. Bake in loaf.

Icing—Beat the yolks of two eggs, to which add eight tablespoonfuls of powdered sugar and flavor to taste.

Boston Ginger Bread.

Place together one cup of molasses, one-half cup of butter softened, one-half cup of sugar, two eggs, one cup thick sour milk, one teaspoonful each of ginger and cinnamon, one and one-half teaspoonfuls soda sifted with three cups of flour; beat; bake in a loaf; serve warm, garnished with whipped cream.

Dainty Pudding.

Cut an angel food cake around the center; put on a thick layer of sweetened whipped cream, and on top of this place marshmallows close together. Then put on a thin layer of whipped cream; place on the other half of angel cake, then whipped cream, and last of all the marshmallows.

Fruit Cake.

Four eggs, beaten separately; one cup sugar, two cups molasses, one-half cup sweet milk, one and one-half cups butter, one pound each figs, dates, raisins, currants, and nuts; one-half pound each candied orange and lemon peel; one-half pound citron; one teaspoonful each cinnamon, spice, cloves, and nutmeg; one teaspoonful baking soda, sifted with five cups of flour. Chop and flour well separately all fruit, mixing a little at a time in the batter. Put in a well greased pan and bake in a slow oven two and one-half hours.

GROWTH OF THE TELEPHONE.

Millions of Instruments Are in Use in This Country.

Washington. — Statistics issued at the close of the year 1906 show that there were in use in the United States alone more than 7,000,000 telephones, while an aggregate of a little more than 6,000,000 miles of wire was used for telephone service.

The telephone industry gives employment to 90,000 persons in the United States, an increase of 171 per cent. in six years, while during the same period the number of stations has increased 239 per cent. and the wire mileage 349 per cent.

There is little doubt that much of this increase is due to the general adoption of the so-called message rate system in place of the flat annual charge formerly in vogue. By making the charges proportional to the number of calls the use of the telephone has been widely extended both because of the greater willingness of people to become subscribers under such conditions and because the system gives an incentive to the local telephone companies to give good service and encourage the use of the telephone.

Another cause for the increase in the number of telephones in use is

doubtless the increasing number of large business buildings in various cities, since the telephone is an absolute necessity in the modern building, making it possible to transact business as well from the twelfth story as from the ground floor. The installation of the telephone in every suite in the modern hotel and large apartment house accounts for a portion of the increase.

SHAVES HUSBAND TO BUY RUG.

Head of Family Undergoes Torment to Help Wife Get Carpet.

Trenton, N. Y.—When the new rug is laid in Grace Baptist church, about four yards of it will be consecrated to the fortitude of Henry Lonsdale. Every thread represents a whisker which Lonsdale submitted to a razor wielded by his wife.

Mrs. Lonsdale is a member of the Ladies' Aid society, which planned to buy the church carpet on the self-denial plan. There is some difference of opinion on this point, the men asserting that Lonsdale showed himself a martyr, while the women are congratulating the wife.

While other women baked bread and sewed, Mrs. Lonsdale decided she would shave her husband, and charge him 15 cents for the operation. It is not on record how Lonsdale first received the proposition, but the fact that he consented to act the victim is proof that his wife has the true religious spirit.

For four months did Lonsdale go through the shaving process. He came believed that a shave once a day was a necessity, but under the skillful manipulation of his wife he shaved a week.

Only once did Mrs. Lonsdale ask: "Does the razor hurt?" He did not swear; he did not groan, but the look of anguish was enough.

W. B. CORSETS

The W. B. Reduso

is the ideal garment for over-developed figures requiring special restraint. It has an apron over the abdomen and hips, so boned as to give the wearer absolute freedom of movement.
